## OIL CENTER NOW MOVING TOWARD NORTH PROVINCE

Trading in Capital City Last Night Mostly Fort McKay, Brokers Almost Precipitating Small-Sized Panic--Seepage Reported Near Nakamun--New Names Hard to Get--Maritime Appears on Exchange and Shows Strength.

The trading at last night's session of the Capital City Stock exchange demonstrated once again that the center of oil and interest is gradually moving toward the north.

Fort McKay was all the rage. It changed hands from 50 to 1,000 almost every moment. Brokers for a time rushed wildly about the exchange buying and selling it, one being fined \$1 for arguing in the pit, when he apparently thought that he had bought a block of 100 shares while it had really gone to another trader.

Altogether over 1,000 Fort McKay changed hands in a few minutes. Union Pacific was the next most active, over 1,200 shares of that stock being sold during the session. Trenton had a considerable run, while Piedmont and Sunbeam were also in the limelight.

Sales of treasury stock also seem to be much more active in the northern companies locally, than in the Calgary and Monarch companies. Alberta Oils, which is generally supposed to be now controlled by a British syndicate, in which Mowbray-Berkeley and Cunningham-Craig have large interests, is keeping up stiff prices, with little offered, while the first issue of U. S. Oils, which has issues in the Fort McKay, Rose-Shilling and other fields is almost gone.

**Oil Seepage Near Nakamun**  
This morning it was reported that an oil seepage had been encountered by a man who was digging a well on section 30, township 57, range 1, west of the fifth, and that samples were on their way to the city. There were heavy fumes in the land office this morning in that section, as a result of the report, but would be flared from the bottom of the land already been taken up. The location is northwest of the Nakamun well and Nakamun stock is having a decided flurry on the

streets and exchanges today.

New companies are having considerable difficulty in finding suitable names for themselves, so many having already been formed and because of the fact that the registrar of companies has decided to refuse to allow hereafter any "double-barreled" names, such as Alberta-Canadian, Edmonton-Alberta, and Alberta-Texas, the reason being that they either have been taken before or possibly others later.

**New Names Wanted.**  
A provincial official stated today that on the average new concerns have to tender about 50 names and frequently every one is turned down. In California there are 1,700 oil companies, some of them similar, and this official believed there is no reason why Alberta, which has not that many yet, should have names which are liable to conflict with other companies here or elsewhere.

No name with the word "Standard" in it is acceptable, some trouble having already arisen in connection with one company with that word, famous in oil circles, in its name. One new company asked for the name "Imperial Navy Oil, Limited," which was also, of course, refused. Some brokers believe there is a lot in a name and one stated this morning that it might pay new companies to advertise for good names.

Some sales at the People's exchange yesterday were: British Canadian, 24; Fort McKay, 60 at 145; Herron-Elder, 35 at 71 1/2; Maritime, 100 at 36, 100 at 35, 100 at 34, 100 at 35, 100 at 35; P.E.P., 100 at 28, 100 at 26; Union Pacific, 20 at 35, 20 at 40.

Maritime made its first appearance on an exchange last night and held its treasury price.

**Manitoba Election**  
St. Rose is taken out of the uncertain column and lined up behind Premier Roblin--Prospects are for Several Recounts to Delay the Final Results.

Winnipeg, Man. July 11--St. Rose was taken out of the doubtful column today and is lined up behind Premier Roblin with a majority of 73 for Joseph Hamelin over J. A. Campbell, liberal. This makes the standing of the parties 21 conservatives and 21 liberals, with St. George still uncertain and three deferred elections the prospect of several recounts still further complicating the possible outcome.

The complete vote gives Hon. Dr. Monaghan, conservative, a majority of three over George W. Prout, his opponent in Kildonan and St. Andrew's. Prout's vote was 1,066 and Prout 1,063. In Clements, nine polls give Roblin, liberal, a majority of 215. The five polls not yet heard are in the outlying parts of the riding and may not be heard from before next week.

T. E. Norris, liberal leader, who is still at Brandon where he received the returns last night, declines to make any statement. "I will say nothing until further developments," he said this morning. With one poll to hear from Mr. Norris' majority in Landsdowne is 472.

J. B. Baird, liberal candidate in Brandon, rolled up one of the biggest majorities of the day, having 686 over F. Dale, his conservative opponent, and 561 in excess of the joint votes of Dale and Craig, an independent candidate.

**J. H. GARIEPY IS RECOVERING FROM SERIOUS ACCIDENT**  
J. H. Gariepy, father of Hon. Wilfrid Gariepy, is recovering from an accident which he met with while at a picnic at Lamoureux last Saturday.

Mr. Gariepy's chair slipped off the edge of a veranda and Mr. Gariepy fell with his back on a tree stump. Although hurt somewhat he did not sustain any serious injury but on arrival home an examination by Dr. Blair proved that Mr. Gariepy had broken a rib in the fall.

It would hurt them. I had no such intention and I just want to make this explanation as I think an injustice has been done. I do not think these reports are very competent and undoubtedly if the impression got abroad that an alderman had stated that they did not do their work properly it would hurt them.

## MANITOBA ELECTION REMAINS DOUBTFUL; STILL COMPLICATED

St. Rose is Taken Out of the Uncertain Column and Lined up Behind Premier Roblin--Prospects are for Several Recounts to Delay the Final Results.

Winnipeg, Man. July 11--St. Rose was taken out of the doubtful column today and is lined up behind Premier Roblin with a majority of 73 for Joseph Hamelin over J. A. Campbell, liberal. This makes the standing of the parties 21 conservatives and 21 liberals, with St. George still uncertain and three deferred elections the prospect of several recounts still further complicating the possible outcome.

The complete vote gives Hon. Dr. Monaghan, conservative, a majority of three over George W. Prout, his opponent in Kildonan and St. Andrew's. Prout's vote was 1,066 and Prout 1,063. In Clements, nine polls give Roblin, liberal, a majority of 215. The five polls not yet heard are in the outlying parts of the riding and may not be heard from before next week.

T. E. Norris, liberal leader, who is still at Brandon where he received the returns last night, declines to make any statement. "I will say nothing until further developments," he said this morning. With one poll to hear from Mr. Norris' majority in Landsdowne is 472.

J. B. Baird, liberal candidate in Brandon, rolled up one of the biggest majorities of the day, having 686 over F. Dale, his conservative opponent, and 561 in excess of the joint votes of Dale and Craig, an independent candidate.

**J. H. GARIEPY IS RECOVERING FROM SERIOUS ACCIDENT**  
J. H. Gariepy, father of Hon. Wilfrid Gariepy, is recovering from an accident which he met with while at a picnic at Lamoureux last Saturday.

Mr. Gariepy's chair slipped off the edge of a veranda and Mr. Gariepy fell with his back on a tree stump. Although hurt somewhat he did not sustain any serious injury but on arrival home an examination by Dr. Blair proved that Mr. Gariepy had broken a rib in the fall.

It would hurt them. I had no such intention and I just want to make this explanation as I think an injustice has been done. I do not think these reports are very competent and undoubtedly if the impression got abroad that an alderman had stated that they did not do their work properly it would hurt them.

**To Increase Canadian Trade**  
Ottawa, July 11--Under the West Indian trade agreement a material reduction in cable rates was provided for as tending to increase trade and facilitate communication between Canada and the islands. It is hoped that the new rates will go into effect in a very brief time.

## CHIEF OFFICER TUFNES FOUND AS NEGLIGENT

Held That He Should Not Have Omitted to Call the Captain When the Fog Came on, and That He Was Wrong in Altering the Course of the Vessel--Recommendations Made for Safety at Sea.

Quebec, Que., July 11--The Collier Storstad is held to blame for the Empress of Ireland disaster in the findings of the wreck commission handed down today.

The commission holds that the disaster was due to the Storstad's change of course ordered by the third officer without instructions from the first officer, who was in charge of the collier at the time.

The Empress was sunk in the St. Lawrence on May 29, with a loss of more than 1,000 lives.

The report was read by Lord Minto, taking up the question of blame for the report said:

"We think that Capt. Kendall would have been better advised if he had given the Storstad a wider berth, and had navigated his ship so as to have passed the Storstad at a greater distance on his beam than he originally intended. We do not think, however, that his stopping, which was really done for greater caution, can be said to have been uncautionable act, nor do we consider his failure to give the wider berth as a contributory cause of the disaster."

Dealing with the porting of the Storstad the report says the commission is unable to accept the view that it was due to counteract the effect of a current and as an act of prudent navigation.

In regard to Rafts  
The rapidity with which the vessel foundered, after the collision made any life-saving appliances on board of little use. Most, if not all, of the passengers were in bed when the vessel was struck and there was an interval of only about 15 minutes between the collision and the foundering. The list which the vessel took to star-board was not obeyed and in failing to call the captain when he had received to call the captain when the fog came on.

"We can come to no other conclusion than that Tufnes was wrong and negligent in altering his course in the fog as he undoubtedly did, and that he was wrong and negligent in keeping the navigation of the vessel in his own hands, and in failing to call the captain when he saw the fog coming on."

The section closes with the remark that the disaster is not to be attributed to any characteristic of the St. Lawrence.

The recommendations of the commission include the closing of all water-tight doors, the closing of all watertight doors and portholes below the water line should be closed at sunset, and kept closed to sunrise. Also that rafts be placed on deck in such a position as they will float automatically as the ship sinks.

**Placing the Blame.**  
The most important section of the report, that dealing with the appointment of blame for the disaster, reads:

"The question as to who, if anyone, is to blame for the collision in this case, depends largely on which of the two stories put forward by the respective officers of the vessels is to be accepted. The main difference between the two stories is to be found in the direction of the way in which the two vessels were approaching each other at the time the Empress of Ireland changed her course after having obtained an order from the Storstad's Captain, the place at which the Empress of Ireland, the outward bound ship, had dropped her pilot, in the place also at which the Storstad, the inward bound ship, was to pick up her pilot."

"It is situated at the north side of the river. The witnesses from the Storstad said they were approaching so as to pass red to red, while those from the Empress said they were approaching so as to pass green to green. The stories are irreconcilable, and we have to determine which is the more probable one."

"Times, distances, and bearings vary so much, in the evidence even from the witnesses from the same ship that it is statement to some newspaper reports almost entirely upon other events spoken of by the witnesses, and upon the probable sequence in order to arrive at a solution of the difficulty."

Suggestions made by the commission as to avoiding similar disaster in the future are as follows:

1. In order to prevent, if possible, disaster such as that into which we have been inquiring we think that in foggy weather it would be desirable to close all water-tight doors and port holes below the top of the water line bulwarks and to keep them closed until the fog has completely cleared. We think also that wherever practicable all water-tight doors and portholes below the above level should be closed at sunset, and kept closed until sunrise. Precaution of the kind suggested would be of great value in the event of the collision of the ship in accordance with the intentions of the designer where as in the case of such precautions may lead to the foundering of a vessel which would otherwise have remained afloat."

2. The rapidity with which the vessel foundered, after the collision made any life-saving appliances on board of little use. Most, if not all, of the passengers were in bed when the vessel was struck and there was an interval of only about 15 minutes between the collision and the foundering. The list which the vessel took to star-board was not obeyed and in failing to call the captain when he had received to call the captain when the fog came on.

"We can come to no other conclusion than that Tufnes was wrong and negligent in altering his course in the fog as he undoubtedly did, and that he was wrong and negligent in keeping the navigation of the vessel in his own hands, and in failing to call the captain when he saw the fog coming on."

The section closes with the remark that the disaster is not to be attributed to any characteristic of the St. Lawrence.

The recommendations of the commission include the closing of all water-tight doors, the closing of all watertight doors and portholes below the water line should be closed at sunset, and kept closed to sunrise. Also that rafts be placed on deck in such a position as they will float automatically as the ship sinks.

**Placing the Blame.**  
The most important section of the report, that dealing with the appointment of blame for the disaster, reads:

"The question as to who, if anyone, is to blame for the collision in this case, depends largely on which of the two stories put forward by the respective officers of the vessels is to be accepted. The main difference between the two stories is to be found in the direction of the way in which the two vessels were approaching each other at the time the Empress of Ireland changed her course after having obtained an order from the Storstad's Captain, the place at which the Empress of Ireland, the outward bound ship, had dropped her pilot, in the place also at which the Storstad, the inward bound ship, was to pick up her pilot."

"It is situated at the north side of the river. The witnesses from the Storstad said they were approaching so as to pass red to red, while those from the Empress said they were approaching so as to pass green to green. The stories are irreconcilable, and we have to determine which is the more probable one."

Freedom from Typhoid or Other Intestinal Diseases Considered Proof

COLOR AND TASTE DO NOT MAKE UP DANGER

Limited Capacity of the Filtration Plant is cause of the Turbidity

The following is the monthly report of Dr. T. H. Whitehead, of the health department, for June, 1914:

The total number of cases of communicable disease reported was 125, of which seven were from outside the city. It will be noted that the minor or less dangerous affections still make up more than half of the total. Especially gratifying is the entire absence of typhoid fever, of which no cases have been reported during the month.

The freedom from typhoid or other intestinal disease of our citizens, who use exclusively the public water supply, should be an assurance that the citizens which are frequently made up to the city water, being dangerous to health are absolutely without foundation. It is true that during the period of maximum turbidity in June as a result of the unprecedented and dangerous weather, the limited capacity of our filtration plant at present was not equal to the task of keeping the water clear, and that the turbid plumes made hereof as the taste and appearance of the water was concerned, but no line was between the health of the community jeopardized. The additions now being made to the filtration system will, however, in a short time it is expected, provide a margin of safety sufficient to guarantee a water supply above reproach throughout the whole year, even under the most difficult and adverse conditions.

The difficulty in June was due to the large amount of sediment in the swollen river, but to the presence of a very coloring matter, which during the first rise of the water after the spring months, is derived from the distance of the water in the river in its upper reaches. To avoid this it would be necessary to obtain our water supply over 100 miles to the west beyond the Fraser tributary.

**Smallpox More Prevalent.**  
Smallpox has been more prevalent than usual at this time of year, three families in all being affected. In the first, a physician was called promptly as a result, vaccination of the exposed persons prevented further developments. In the other two families, the disease had existed for two weeks before a physician was called. As a result, all unvaccinated members of the families eventually contracted the disease, three children only who were attending school, as a consequence, remained alone, and escaped the infection. The list of communicable diseases is as follows:

City Outside  
Smallpox ..... 6 0  
Diphtheria ..... 18 0  
Scarlet fever ..... 18 0  
Measles ..... 18 0  
German Measles ..... 18 0  
Chickenpox ..... 5 0  
Mumps ..... 26 9  
Erysipelas ..... 23 0  
Whooping cough ..... 23 0  
Tuberculosis ..... 0 4

Total, 126.  
There were admitted to the isolation hospital for treatment 37 cases during the month, classified as follows:

Diphtheria ..... 12  
Scarlet fever ..... 12  
Measles ..... 7  
German Measles ..... 7  
Erysipelas ..... 7  
Smallpox ..... 7  
Tuberculosis ..... 1

Total, 56.  
During the month, owing to the extremely wet weather, many complaints have been registered of flooded cellars, basins, and stagnant water. To relieve the situation, many complaints have been made to drain the worst districts by the street maintenance department, but much water still remains in the low lots and districts which it is difficult or impossible to deal with.

Many notices were served on owners of houses not yet supplied with sewer and water services, and though many are complying with these notices, the financial depression at present existing makes it impossible to enforce this law for as is desirable in the interests of public health. The same difficulty exists in connection with the removal of feces and sludge.

(Continued on Page 8.)

TO PRINTERS AND PUBLISHERS:- OUR LINOTYPE COMPOSITION DEPARTMENT IS ALWAYS AT YOUR SERVICE

## NEWS OF THE CHURCHES

At the Carman Methodist church tomorrow, the pastor, Rev. F. J. Johnson, will speak at both the morning and evening services and also conduct the senior bible study at 3 p.m. The morning subject will be "My Personal Contribution to the Kingdom," and the evening, "Could the Hungry Cripple Murderer Die a Christian?"

At the Brotherhood meeting, First Baptist church, tomorrow at 2, C. Campbell will lead. There will be a song by P. K. McGregor. All men are welcome.

At the First Presbyterian church tomorrow morning Dr. C. A. McEneaney will make a further reply to Professor W. H. Alexander. The subject will be "The Christian Ethic and the Family." Dr. D. G. McQueen, the pastor, will conduct the evening service.

Prof. J. M. Miller will preach at both services at Robertson church tomorrow morning. Morning, "Things That Cannot Be Shaken," evening, "Can We Outgrow Christ?"

"Why is a Socialist?" is the subject of the address at Unitarian church, corner 103rd and Jasper, on Sunday evening at eight o'clock. The pastor, Rev. C. F. Potter, is neither a Socialist nor a hater of them, and will discuss the subject pro and con, endeavoring to answer such questions as these: What is the definition of Socialism? How does Socialism differ from Syndicalism and the I.W.O.? How does Socialism compare with Collectivism, Communism and Anarchism? Is Socialism a menace or a hope?

The subject of the morning service will be "Noah's Ark," being the second lecture in the course on "Famous Fables of Hebrew Folk Lore."

"The Bible and Its Teaching" and "What Makes Life Worth While?" will be the morning and evening subjects, respectively, at Grace Methodist church tomorrow. The pastor, Rev. Thos. Powell, will be the preacher.

The subject of tomorrow's lecture at the New Thought temple will be "Death and After—a study of the life beyond in the light of modern scientific and latter-day occultism, spiritualism and all other students of psychic phenomena are invited."

The special preacher at the evening service at the Anglican church, North Edmonton, tomorrow, will be Rev. R. M. Swan. The service at Rev. D. G. McQueen will occupy the pulpit at the Presbyterian church on Sunday morning.

The meeting of the Y.M.C.A. tomorrow afternoon, at 4:45, will be addressed by Rev. Dr. C. A. McEneaney of the Young Men's Christian Standpoint.

G. W. Jones, lay reader in charge, will be the preacher at St. Paul's mission, Gallagher place, on Sunday evening.

Rev. Fisher, of North Edmonton, is chaplain at the cadet camp this week.

C. T. Alworth, lay reader at St. Luke's church, Highland park, will be the special preacher at St. Mark's Anglican church, corner 111th and 112th, on Sunday evening.

The preacher at the morning service will be Mr. Wilburham, lay reader at St. Paul's mission, Gallagher place, and also give an address at the children's service at 3 p.m.

The pulpit of Westminster church will be occupied in the morning, Sunday next by Rev. E. McEneaney, of Knox church, and in the evening by Dr. C. A. McEneaney, of First Presbyterian church.

The sixth annual convention of Church of Christ in Alberta is being held in the Central Church of Christ, Kinsmen avenue and Edmonton street, under the auspices of the Alberta Missionary Society of the District of Christ. The first session was held last night.

Rev. G. K. Lewis, of Cincinnati, O., in an able address on Home Missions. Mr. Lewis is a member of the American Christian Missionary society, and international organization, and in prospectus mission work both in the United States and Canada.

At the morning session today, Rev. M. H. Ryan of Calgary, superintendent of missions for the District of Christ in Alberta, will give his report. The report will show an encouraging growth of the work of this body in Alberta during the past year.

At the afternoon session, Mrs. J. A. A. Hough of Winnipeg will give an address on women's missionary work. Rev. A. R. Aldridge of Edmonton will address the convention at the evening session on "The Campaign for a Dry Alberta," and Mr. Lewis will give another address on the same work.

The Sunday services will be full of interest. Rev. J. D. Pickett of Lethbridge will conduct an hour of prayer from 10 to 11 a.m. At 11 a.m. Rev. W. L. McEneaney of Spokane, Wash., will preach.

The afternoon meeting on Sunday will be a dedicatory service, when the building, recently acquired by the Central Church of Christ of this city, will be formally opened. Superintendent M. B. Ryan of Calgary will conduct that service and preach the dedicatory sermon.

The convention will close on Sunday night with the singing of "The Call of God to the Disciples," by Rev. G. K. Lewis.

Delegates are in attendance from Lethbridge, Calgary, Estevan, York, Camrose, Ardley, Vermilion, Viking and other points.

The Eastwood Methodist church Auxiliary has been fortunate in securing the returned missionaries, Miss Helen of Port Simpson, and Miss Horrope of Coquitlam, to give an address at the special meeting to be held in the Eastwood church on Tuesday next at 2 o'clock. All the ladies are cordially invited to attend.

A large crowd is in attendance last night at the opening of the "The Call of God to the Disciples," by Rev. G. K. Lewis.

The services on Sunday at the McDougall Methodist Church will be conducted by Rev. Wm. E. MacNiven, B.A. In the morning the subject is "The Fruit of the Spirit," and in the evening, "To Him that Overcometh." In the morning service Mr. MacNiven will sing "Prayer" by Carrington; and in the evening Mr. Hendon will render a solo. The choir in the morning will sing "O Come let us Worship" by Himmel, and in the evening "Now the day is over" by Brown. All are invited to attend the services.

"The Bible and Its Teaching" and "What Makes Life Worth While?" will be the morning and evening subjects, respectively, at Grace Methodist church tomorrow. The pastor, Rev. Thos. Powell, will be the preacher.

The subject of tomorrow's lecture at the New Thought temple will be "Death and After—a study of the life beyond in the light of modern scientific and latter-day occultism, spiritualism and all other students of psychic phenomena are invited."

The special preacher at the evening service at the Anglican church, North Edmonton, tomorrow, will be Rev. R. M. Swan. The service at Rev. D. G. McQueen will occupy the pulpit at the Presbyterian church on Sunday morning.

The meeting of the Y.M.C.A. tomorrow afternoon, at 4:45, will be addressed by Rev. Dr. C. A. McEneaney of the Young Men's Christian Standpoint.

G. W. Jones, lay reader in charge, will be the preacher at St. Paul's mission, Gallagher place, on Sunday evening.

Rev. Fisher, of North Edmonton, is chaplain at the cadet camp this week.

# ALBERTA CADETS IN LEAD DOMINION, SAYS CRUKSHANKS

Colonel in Charge of East End  
Camp Says Boys are  
Well Behaved

MANY NATIONS ARE  
REPRESENTED HERE  
Teaches Youths Better Habits  
and Makes for Better  
Citizens

Alberta has more cadets in proportion to her population than any other province in the Dominion, and even in point of prowess as well, having twice won the Earl Grey shield. Such is the statement of Col. E. A. Crukshanks, commandant in charge of the Alberta cadets now encamped at the east end park, to the number of about 500. The winning of the Earl Grey shield twice, is a point worthy of special mention, and there is scarcely a town with a school of any size at which there is not a corps of the shield dressed cadets.

According to actual figures, Edmonton has 100 more cadets than has Calgary, notwithstanding the fact that the oil city has the greater population. The cadets include boys of every denomination and nationality who are represented in the city, and Col. Crukshanks is strong in his belief that the cadet system in developing boys is most beneficial along physical, mental and moral lines and believes that the discipline of camp life teaches them obedience and self-control, makes them harder and more courageous, and better citizens, and if needed, better citizens in defense of their country.

Owing to the recent rains in the city, the camp in the east end has been infested by mosquitoes, much to the dislike of everyone in camp, but on the whole, camp conditions are as perfect as it is possible to make them, and the camp far has been going on with most successfully. Many parents visited camp last night and were delighted at the spot and upon appearance of the cadets and their camp. Some of the boys have been suffering from minor ailments and were sent to the camp hospital, but on the whole, the health and spirits of the boys is of the best, with the exception of one boy who took sick and was sent to his home in Wetaskiwin.

The boys are all well behaved and nothing but good results can be expected from the camp. The camp is the outcome of the world's life insurance, even though some of the tents were found to be set too low when the heavier rains fell the other night. Col. Crukshanks denies the report that there were any under-fed and uncared for boys in the Calgary cadet camp, although some parents did see fit to raise objections to some of the camp routine. The host of feeling exists among all the cadets, although the boys of many nations are trained and drilled together, and that the table tennis, Sunday a large outdoor church service will be held and there is a possibility that the officers and boys may attend one of the churches in a body.

## HILLCREST DISASTER INVESTIGATION COMES PRACTICALLY TO CLOSE

Hillcrest, July 11.—With the examination of three more expert witnesses and the further examination of Fire Police John, the evidence in the Hillcrest mine inquiry, which has lasted three July 2, was concluded yesterday afternoon. There only remain the address of counsel, after which the inquiry will close and his honor Judge Carpenter will be in a position to go over the evidence and compile his report.

The evidence of the expert witnesses, R. E. Dinan of Edmonton, T. J. Hudson of the Dominion department of mines, Ottawa, and John T. Sterling, chief inspector of mines for Alberta, was much more conservative than that given by the former expert witnesses, Justice Asquith and Norman Frank. Mr. Dinan did not criticize the system of ventilation in the mine at all, but considered that the mine was a dusty mine or contained undue amount of gas.

Mr. Hudson thought it was a gas explosion but would not give any opinion as to the cause of ignition. He would not call the mine unusually noisy or dusty.

From the evidence and his examination, Mr. Sterling thought that some extraordinary and unforeseen combination of circumstances had been responsible for the explosion and could not suggest how the gas had been ignited.

## PRINCE OF WALES' SCHEME AT SHOW NIPPED IN BUD

London, July 11.—The Prince of Wales, 21 years old since June 23, made his first serious attempt to play the man-about-town this week. However, it was promptly nipped in the bud.

The king and queen being away in Edinburgh, the young prince emerged unexpectedly, and, behind a big clear, three young friends. The happy quartet were comfortably settled down in the stalls to enjoy the first unattended visit to the theater, when, half way through the performance, a messenger arrived with a note and the prince promptly got up and departed. He was not to return. After a time his friends also faded away.

It is suggested that the young prince is under bond to be home by a thirty every night, and had overstayed his time limit.

## TEACHERS' SUMMER TRAINING SCHOOL IS IN FULL SWING

The summer school for teachers being held at the University is in full swing. One hundred and fifty students are in attendance and when the inspectors, who are also to take the course, arrive, there will be altogether 180 students at the university for the teachers' summer school.

Classes are held daily under competent instructors in agriculture, natural history, art, methods, manual training, woodwork, drawing and painting and for the province.

## TEACHERS PAY VISIT OF INSPECTION TO JOHN WALTER'S MILL

This afternoon the teachers in attendance at the summer school at the university, at the invitation of John Walter, paid a visit of inspection to the John Walter Lumber company's new mill and saw the process of manufacturing lumber from the time when the first stumps are cut from the river to the stacking in the yard for seasoning.

Afterwards the teachers adjourned to the south side park where they studied the plants that are growing there.

## England Wins First Match

Wimbledon, Eng., July 11.—England won the first singles match from France in their second round started today in the competition for the Dwight F. Davis International Lawn Tennis trophy. T. M. MacGregor defeated Max Gormet by 6-4; 9-7.

## ALLEGED THAT COST OF RAILWAY PADDED TO GET THE SUBSIDY

Fredericton, N. B., July 11.—That David W. Brown, acting on an alleged hint from E. V. Johnson, federal inspecting engineer, practically padded the cost of the Southampton railway to make sure of the double subsidy of a severe examination by the commissioner. Mr. Brown made the statement that acting on a hint from Mr. Johnson the cost was too near the double subsidy limit of \$21,400, a mile, and that R. K. Pinder's books would not stand an audit, he raised the value to \$12,400, or about \$1,000 per mile.

Mr. Johnson when recalled to the stand stoutly maintained his innocence and said that the statement credited to him by Mr. Brown was sheer nonsense.

## SUMMER VACATION TOURS to GRAND TRUNK PACIFIC EASTERN CANADA POINTS

To The Prospective Traveller:

now, Ont., announce the engagement  
of their youngest daughter, Margaret  
Mary, to James Ernest Carmichael,  
M.P., M.C., son of John Carmichael of  
Edmonton, Alberta. The marriage will  
take place the latter part of July.

Miss Lucy Oliver accompanied Mrs.  
J. B. Fraser and Miss Isabel Fraser  
when they left at the end of the week  
for Kennebunk, Beach, Ottawa.

Mrs. and Mrs. Hunt of 32nd street  
entertained on Thursday evening in  
their home.

**How English Beauties  
Keep Faces Youthful**

Christian Miller, F.C.I., noted English  
beauty expert, attributes the early signs of  
wrinkles to the use of "bad" cosmetics.  
The women of England, she says,  
on their face the most remarkable  
of results.

Another valuable lesson to be learned  
from the English women is that they do  
not go in for cosmetics, the cosmetic  
use of which must not only be com-  
plicated, but also very costly. The  
beauty devotees of King George's  
realm have the secret of youthfulness  
in the use of the most effective of

## HEALTH RECOVERED BY SIMPLE REMEDY

"I was troubled for years with  
liver trouble and  
headaches and  
could find no  
temporary relief  
in the different  
remedies tried  
until I used your  
Warner's Safe  
Kidney and Liver  
Cure. I am pleased  
to state that it  
cured me com-  
pletely and I have  
not felt so well in  
years."—Mrs. W. A. Johnson, Sym-  
mes Springs, Santa Monica, Cal.

A lady liver makes life a burden, as  
thousands of suffering men and women  
know. There is no energy for business  
or pleasure. Headache, sleeplessness,  
yellow skin and coated tongue indicate  
that the liver is not doing the work  
properly and the bile is not being car-  
ried off. Warner's Safe Kidney and  
Liver Cure is an absolutely safe reme-  
dy for all inflammatory and other dis-  
eases of the liver and kidneys. It  
corrects the functional trouble by in-  
creasing the flow of bile into the bow-  
els to a healthy standard and keeps it  
there. It adds to removing the waste  
material that obstructs the circulation  
of the liver and kidneys, and by its  
tonic and purifying properties brings  
it to a condition of perfect harmony  
with the organs of the body. Warner's Safe  
Kidney and Liver Cure has been used  
for 37 years and never found wanting,  
and is bound to do you good. Sold by  
all druggists in liquid and tablet form.  
If you write Warner's Safe Remedies  
Co., Dept. A, Toronto, Ont.

**Raisin Sandwiches**  
Chop fine one cup of raisins together  
with half cup of walnuts. Mix with  
a little cream or the white of an egg  
beaten. Season with a little salt  
and butter. Bake in small slices  
brown or white bread.

**THIS IS SOFT SHELL CRAB SEASON AND HERE ARE  
SOME TIMELY TIPS**

The crab is one of the delights of  
the summer because it is as easy to  
prepare as it is to eat and digest.

This is to say, the soft shell crab  
is easy to prepare.

So it behooves every cook to take  
advantage of the season by preparing  
it in the most delicious manner.

To prepare soft shell crab, first  
wash them thoroughly.

Be careful, in your thoroughness, not  
to break them unnecessarily.

Then with a small pointed knife,  
cut out the eyes and the little sand-  
wich in one piece and remove the flap or  
apron from the underside of the body.

The crab is then ready for cooking.  
The simplest method of cooking is  
to broil it on a well-fired grill in a real  
delicious.

**Fried Crabs.**  
Prepare one breadcrumb from dry  
bread. Then dip the well-washed crab in  
these, then dip in beaten egg, then in  
crumbs again.

Put in deep hot fat. As soon as the  
crabs are golden brown they are done.  
Garnish them with lemon and parsley  
and serve immediately after drain-  
ing them for a moment on brown  
paper to absorb the superfluous fat.

**Devilled Crabs.**  
Devilled crabs, somewhat more  
troublesome to prepare, are equally  
delicious.

To make them, pick out the meat  
from twelve big crabs which have  
just been boiled. Chop the meat fine  
when it is cool, and season with salt,  
pepper, a dash of grated nutmeg and  
a little dry mustard.

No rule for this seasoning can be  
given. The discriminating taste of  
the cook must be depended on to get  
the seasoning just right.

Then add two tablespoons of  
butter and the same measure of fine  
bread crumbs that there is of crab  
meat. Moisten with half a cupful of  
rich cream and mix thoroughly.

Fill the crab shells carefully with  
this mixture; they must not be broken  
when the meat is removed. Cover the  
crabs with the mixture and bake in bread-  
crumbs and brown in the oven.

Dip slices of lemon in minced par-  
sley and garnish the hot crabs with  
these.

**Crab Soup.**  
This calls for a pint of water  
brought to the boil with the following  
seasoning: Two tablespoons of

**BEER MADE  
AT HOME**

Anyone Can Now Make Beer  
at Home for One Cent a  
Glass.

Cincinnati, O., July 11.—By a new  
method of concentration a brewer of  
this city has discovered a process  
whereby real beer can now be furnis-  
hed in a concentrated form. It  
furnishes the barley malt, hops and  
other necessary ingredients in a con-  
centrated form so that by only the  
addition of water and a little sugar a  
sparkling foaming glass of beer can  
be quickly prepared. It is said that  
this beer is far superior to the regular  
brewery beer and thousands are al-  
ready making their own beer at home.

Mrs. A. S. Shah of 674 Spencere  
street, Cincinnati, O., has written a  
very interesting booklet giving full  
information about his process which will  
mail with free trial offer to any-  
one sending him their name and  
address.

## HER SUMMER BRIDGE PARTY.

Mrs. Rock—"My goodness, Carrie!  
Aren't you up yet? And it's 7 o'clock  
already! You know that I'm going to  
the bridge party! And it's going to be  
the hottest day of the year! And I'm so  
afraid that woman won't send the  
cider!"

Her sister (aged 15 and therefore  
optimistic)—"Well, everything's done  
but the sandwiches and that's only an  
hour's work."

Her sister (in a sort of wall-  
ow)—"Carrie, you talk like a child! Don't  
you know that always when you give  
a party millions of things to be done  
always turn up at the last minute?"

Especially at a summer resort, where  
you can't get things! I almost had  
to brain the vegetables now to get  
him to promise that he'd bring let-  
tuce! These natives think the let-  
tuce is crazy because they always  
want lettuce! They think we stuff  
soda pillows with it. Now, what if he  
doesn't bring the lettuce, and I say—

Her sister—"What's the use of  
worrying? He'll bring it. Or we'll  
use grape leaves."

Her sister—"What's the use of  
worrying? He'll bring it. Or we'll  
use grape leaves."

Mrs. Rock—"With those women com-  
ing from the Peabody place! I'd die  
if I had to use grape leaves! Why  
they come from a city where if they  
have a half dozen to dinner, they  
don't never understand never!"

And I just know Frieda's going to fall ill  
the last minute! I never saw her  
around her jaws that she always  
gets when I am going to have company!

Her sister—"Well, be sure you don't  
bring in many bottles for the women.  
There were spiders on the decorations at  
last year."

Her sister—"My goodness, May, I'm  
harrying. I'm going out to hunt you  
some vine and things for the veran-  
dah."

Mrs. Rock—"Well, be sure you don't  
bring in many bottles for the women.  
There were spiders on the decorations at  
last year."

Her sister—"My goodness, May, I'm  
harrying. I'm going out to hunt you  
some vine and things for the veran-  
dah."

Mrs. Rock—"Well, be sure you don't  
bring in many bottles for the women.

bring in many bottles for the women.  
There were spiders on the decorations at  
last year."

Her sister—"My goodness, May, I'm  
harrying. I'm going out to hunt you  
some vine and things for the veran-  
dah."

Wallop the other day and one got in  
that fat Mrs. Gordon's punch and she  
spilled over a table. You'd think a  
spider was an octopus the way women  
act about them!"

Frieda—"Please, mama, the olives  
and nuts aren't in the groceries that  
came yesterday."

Mrs. Rock (with a shriek)—"What  
did I tell you, Carrie? This is just  
the beginning! I must telephone—"

Her sister—"I'll just ask Tommy  
Bette and send him to town in his  
machine!"

Mrs. Rock—"I just hate asking a  
favor of the Bettes! They're so dis-  
agreeable!"

Her sister—"Fool! That won't hurt  
the flavor of the olives any! And I  
might as well make Tom pay for the  
ride I entertain him on the veran-  
dah!"

Mrs. Rock (to her young son)—  
"Carrie, don't you dare set foot on the  
verandah this morning! It's all clean-  
up, ready for the party, and—"

Her sister—"Carrie, I can't say  
what dreadful thing will happen to  
you if I even lay eyes on you this  
morning! Go on down to the beach  
and play! You're always begging  
to go on!"

Her son—"I don't want to!"

Mrs. Rock—"I'll shut you in a closet  
this very minute if you don't go! And  
look at all the sand you've  
tricked in! My gracious! Frieda!

Frieda! Does that look like a rain-  
cloud over there to you? If it should  
rain, and we've got to get those  
chairs, tables and chairs from the  
neighbors! Run like everything and  
bring them! Oh things look so hor-  
rid and soapy when it rains! Why  
couldn't it put off a day! Gracious!  
I've forgotten to phone for flowers!  
And then those sandwiches to make!"

Frieda (breathing hard after carry-  
ing two chairs)—"I think I'll lie down.  
My head aches."

Mrs. Rock—"Carrie! Never mind  
those vines. Come help with these  
awful sandwiches! I never saw so big  
in my life, never! Do you suppose  
those cakes will get here? And there  
are covers to the on the card tables and  
the prizes to wrap up! If that Wallop  
woman gets the first prize again I'll  
die! She always gets 'em! We've got  
a thousand sandwiches to make and  
I've got to get dressed in half an hour  
exactly! I could cry, I'm so tired!  
I've rushed so fast that I'm  
trembling! I ache in every bone! And  
I came to the country to rest! Car-  
rie, you finish these sandwiches later.  
I squeaked the lemon! I'd forgotten  
'em! Once and the ice hasn't come!  
Oscar! Oscar! That child is never  
around when he's wanted! O-scar! O-scar!  
O-scar!"

Her sister—"Pull yourself together,  
May. You're getting hysterical."

Mrs. Rock (twenty minutes later, as  
the net gong arrives)—"So glad to  
see you! No, you're not a bit early!  
Oh, I've been ready for hours!"

**HOUSEKEEPER'S CORNER**  
Mushrooms

The safest way to get edible mush-  
rooms is to buy them of a reliable  
dealer, unless you are yourself a mush-  
room expert and can gather them your-  
self. Never buy them from chil-  
dren or even know who wander about  
the woods and fields gathering them.  
If you gather them yourself, you  
know what you are doing. If the  
dealer sells them to you, you virtu-  
ally know they are safe, for the dealer  
knows what he is risking his reputation.  
If he sells you anything poisonous,  
Canned mushrooms are always safe  
for they are gathered by experts and  
they can be used for almost any mush-  
room delicacy.

Mushrooms, if they are not canned,  
should be cooked when fresh. Always  
cut them with a silver knife and cook  
them in porcelain, so that they will  
not be discolored. Sprinkle a little  
from turning black while they are  
standing.

**Lemon Cakes**  
Half cup butter, half cup sugar, half  
cup milk, three cups flour, two eggs,  
two spoonfuls baking powder. Flavor  
with lemon. Bake in small paper pans  
in a quick oven.

**Ladies**

## FRATERNAL NEWS AND NOTES

Past President Harry Wells, President H. C. Cable, Chaplain Geo. Beeby and Bro. Chas. Knights, of Lodge Strathcona, No. 2, S.O.E., were visitors at Lodge Edmonton last Monday evening.

If every member of Lodge Strathcona made it a point of attending one meeting each month, there would be a "full house" every Thursday night.

Members of the S.O.E. are requested to keep Wednesday afternoon and evening.

ing, July 22, open dates. The combined lodges will hold a picnic with games and sports in the East End park, north side, on that day. All married members with their wives are requested to bring along well-filled baskets with sufficient for themselves, and to entertain one or more of the "bachelors." Those who cannot get out early in the afternoon, should endeavor to be there in time for tea.

Lodge Strathcona was represented in

## A FRIEND OF THE POLICEMAN

Continually on their feet, the "Feelers" are invariably troubled with corns and bunions—but not for long—because they know of a quick cure, Futnam's Corn Extractor. It cures painlessly, in 24 hours. Try Futnam's, 250 at all dealers.

The Orangemen's church parade last Sunday afternoon by 15 of their officers and members.

Have you joined the Strathcona Lodge Athletic association yet? All Englishmen, whether members of the society or not, are eligible. Membership cards, \$1.00.

Bro. Harry Wilson, of Lodge Edmonton, was a visitor at the business meeting last Thursday evening of Strathcona lodge.

This afternoon and evening the combined lodges are enjoying a picnic party on the south side exhibition grounds. Carpet bowls and quarts, children's races, cricket, and a football match in the evening, constitute some of the amusements to be provided. The summer season is none too long. Come and spend your leisure time in the open air.

S. Tunncliffe was initiated a member of the Red Rose degrees on Thursday evening last, the ceremony being conducted in a highly efficient and impressive manner by the responsible officers.

All Englishmen or descendants of English parents, who are desirous of associating themselves with the S.O.E. society can obtain all information from the secretary, Bro. John Horwell, Strathcona P.O., or from the president, Bro. H. C. Cable, phone 2125.

The semi-annual installation of officers of Namayo lodge, No. 47 I.O.O.F., took place on Monday evening last, a full report being given by us on Wednesday.

The first degree will be exemplified on Monday evening next by the degree staff of Namayo lodge, No. 47 I.O.O.F., in their hall, corner of Namayo avenue and Griesbach street.

Unity Rebekah lodge, No. 26 I.O.O.F., meets every second and fourth Wednesday of the month at 8 p.m., in the lodge room in the Richards Block, Whyte avenue.

Maple Leaf encampment, No. 10 I.O.O.F., held regular session on Thursday next in the Namayo Oddfellows' hall. The patriarchal degree will be exemplified.

## NOTICE

Notice is hereby given that, under the provisions of an Act respecting Insurance Companies in the Province of Alberta the Ladies of the Maccoches of the World has been licensed to do Fraternal Beneficiary Insurance business in the Province of Alberta under Certificate of License No. 62.

Dated at Edmonton, this 4th day of July, 1914.

## STRIKE GAS AT THE VIKING WELL

Flow Encountered at 575 Feet—Will Furnish Power for Further Drilling

There has been considerable delay in drilling for gas at the Edmonton Industrial association's well north of Viking, but the glad news now comes to hand that a pocket of gas has been struck at a depth of 575 feet, from which enough gas flows to furnish power for the remainder of the drilling, in the opinion of the drillers.

The strike was made Thursday morning and James Ramsey, chairman of the industrial department of the association, journeyed down there Thursday, accompanied by secretary W. A. Milne of the association. Both return well satisfied, on the whole with the progress and better than ever convinced that sufficient gas will be found on the location chosen to solve the light, fuel and power question for this city.

When the drillers lit the flow it immediately blazed up about 20 feet in the air with terrific force, and steam had to be used to extinguish it. All of the drillers who are experienced gas operators are convinced that the probabilities for striking a heavy flow at a depth of 1,700 are exceedingly good.

They have the log of some Medicine Hat wells and it coincides almost exactly with that at Viking so far. At Medicine Hat the drillers encountered a pocket at about the same depth and of about the same force.

It is estimated that the gas discovered amounts to about 50,000 feet a day. There are seven men on the job and from now on day and night shifts will be used. They are now going down about 35 feet a day and if no more accidents occur should be nearing the heavy flow some time next month.

Up to the present the delays have been due to a variety of causes. First of all a cable broke, which held the work up for a full week. Then they had to put down over 300 feet of 1 1/2 inch casing, where they had estimated it would take but 100. This had to be shipped all the way from Pittsburgh, Penna., and 200 feet of 13-inch casing was also used. At present 10-inch material is being put in.

The Bay's Big Sign

The Hudson's Bay company have just completed the erection of the largest electric sign in the city, located on the south wall of the new store addition. The sign was brought from Winnipeg where it was used for some time on the Bay's Portage avenue site. The big sign is 90 feet long and 8 feet high. In it there are 800 twenty-five watt lamps, giving 7500 candle power, and using 9750 watts an hour.

## NOTHING STARTLING DEVELOPED YESTERDAY IN ULSTER SITUATION

London, July 10.—The predictions of the Unionist press that yesterday would see some startling development in the Ulster situation, were not fulfilled. Sir Edward Carson, the Ulster Unionist leader, arrived at Belfast and was accorded a reception of a military character, after which the provisional government held its first formal meeting and passed a series of resolutions authorizing the executive to take whatever steps were necessary to enforce Ulster's opposition to home rule.

The Ulster papers declare that the gravest possible crisis is at hand in Ulster, and some of them have sent large staffs to that province and have made some preparations to report unexpected events.

On the other hand, the liberal papers contend that the followers of Carson are working up a great sensation, which is only a bluff, intended to influence the coming debates in the house of commons on the amending bill, and frighten the government into yielding all the exclusion terms demanded by the Carsonites.

The humorous side of the situation is seen in the almost daily reports in Ulster papers of extensive landings of munitions for the Ulster volunteers, which reports are promptly contradicted by other equally trustworthy Ulster papers.

## DUKE OF CONNAUGHT GETS AN INSIGHT INTO COD-FISHING INDUSTRY

St. John's, Nfld., July 11.—The Duke of Connaught had an interesting experience, getting a first real insight into the cod-fishing industry as promoted by the Newfoundlanders. At Blanc Sablon he saw a cod trapper's large enclosure of netting, used very extensively for fishery purposes now-a-days, hauled in by the fishermen and its catch removed, the fish being removed, brought to the curing house, cleaned, salted, dried and packed for market. He realized the hardships the Newfoundland fisher-folk endure in earning their bread by constant battle against fog, ice and storm.

At St. Anthony he saw another aspect of the life of the fisher people, the assistance provided for them in the way of medical, surgical and dental relief through the efforts of Dr. Grenfell, assisted by the generosity of well wishers in Britain, Canada and the United States. He greatly enjoyed the tour through the hospital, the orphanage, the technical school and the guest house. He was equally interested in the herd of 1,200 reindeer maintained at the place. They are to be distributed in a year or two along the Labrador coast, their advent to be marked by a wholesale slaughter of the dogs now used, reindeer being substituted for the dogs.

Jewel Rebekah lodge, No. 25 I.O.O.F., will meet on Thursday evening in the Newwood Oddfellows' hall.

There's nothing small about the Ford—except its purchase price and cost to keep. In number of cars, in world-wide use, in quality of service to owners and in its daily performance it is the biggest car in the world. 530,000 users will testify to these facts.

\$555 for the runabout; \$725 for the touring car and \$985.00 for the town car—f. o. b. Edmonton, Alta., complete with equipment. Get catalog and particulars from

## WHITELAW HOLDS THAT CITY WATER IS NOT A MENACE

(Continued.)  
neighborhoods where recently sewer and water services have been laid. These who are building good residences in such districts naturally object to the presence in their close vicinity of shade and tennis courts to the provisions of the sewer and water by-laws. Some improvement is being made in this respect, but owing to lack of steady employment many of the shade and tennis dwellers are absolutely devoid of the means necessary to remove themselves or their dwellings to other locations permissible by law.

**Vital Statistics.**  
For the month of June there have been:  
Births ..... 229  
Deaths ..... 42  
Marriages ..... 126  
Of the above forty-two deaths, twenty were under one year of age, and of these twenty, eight were less than one month of age, nine over one and under six months, and three over six and under twelve months.

The causes of death in these twenty infants are given as follows:  
Infantile diarrhoea and gastritis ..... 4  
Immaturity, accidents of birth and malformations ..... 5  
Whooping cough ..... 1  
Measles ..... 1  
Pneumonia ..... 1  
Diphtheria, general debility and marasmus ..... 1  
Indefinite (no doctor attending) ..... 2  
Deaths due to the approach of the hot day season the number of vaccinations has fallen considerably, only forty-four school children having been vaccinated during the month. The experience we had with smallpox in three families demonstrates very forcibly the value of enforcing the provincial law respecting vaccination of school children as none of these became affected though freely exposed.

### FACTS REGARDING POSSIBLE MURDER NOT YET TO HAND

Whether or not there is any truth in the story as told to the Mounted Police by Jim Venn, that he and another man had found the body of Frank Johnson lying in a shack with the head crushed in with an axe, remains to be seen, as Superintendent Wroughton of the local detachment has heard nothing whatever from his men in Lac La Biche district where the body was said to have been found.

Rowan, who is well known locally as a leader of the I.W.O., went north some months ago, and it was said that he had promised to make trouble when he got there. Superintendent Wroughton heard of this in the time and wrote to the police at Lac La Biche of Rowan's departure for the north and to be on their guard. A few days ago Rowan was picked up as a vagrant some forty miles south of Lac La Biche and told the story of having found the man dead, with his head crushed in and a blood stained axe lying beside him.

Rowan was arrested, brought to Edmonton and given six months' sentence on the vagrancy charge. To Superintendent Wroughton he told the story as he had told it in the north after making his find. His story does not altogether suit the facts, however, and a careful examination into the man's death has been ordered, although nothing has yet been heard from the police sent on the case. The fact that Rowan walked forty miles south before telling anyone of his experience demonstrates, when he might have walked seven miles to the mounted police headquarters, hangs suspiciously on his story and the developments in the case will be watched with interest. Rowan is a well educated man, and is said to have been carrying firearms when he left Edmonton for the north.

### MAY GO TO JAIL FOR NOT GIVING OIL CERTIFICATES

"If you oil brokers think you can pull off this kind of stuff, you can't do it." In this manner did Magistrate Maasie address J. D. Scott, a local oil broker, in the police court, when the latter was fined \$25 and costs, or thirty days imprisonment, for having taken a client's \$5 on a purchase of Union Pacific oil stock, but had failed to produce the certificates. Scott was given his first hearing some days ago, and at that time the court gave him three days to produce the certificates, but when Scott failed to do as required, either through his own carelessness or from some fault of the company's, he was assessed the \$25 fine and given words of warning. The magistrate also stated that he would look into the matter of the Union Pacific oil company and if they were not living up to the law as required by the department, he would see to it that their charter was taken away from them. And even yet the complainant has not received his certificates.

### ST. JOHN BAPTIST CELEBRATION AT ST. PAUL DE METIS

A large liberal picnic will be held next Tuesday in the Island Lake Hall, at which the Hon. Wilfrid Garfield will be one of the principal speakers. The annual celebration of St. John the Baptist at St. Paul de Metis takes place next Wednesday. Hon. Wilfrid Garfield and Hon. P. E. LeSueur have both arranged to attend.

## CHIEF OFFICER TUENES FOUND AS NEGLIGENT

(Continued.)  
but that he had not mentioned the steering gear to either of them. That way save his evidence badly and made so unsatisfactory a witness that we cannot rely on his testimony. Some evidence was called, however, to confirm Galway. This was the evidence of three men and the pilot from another Norwegian collier, called the "Alden," a boat under time chartered to the Dominion Coal company, which were the charters of the "Storstad." The witnesses spoke of having passed the "Empress" on her way down the river about 3:30 (Montreal time) on the evening of May 28th and they said she was swinging and steering badly, changing from red to green several times. The witnesses did not speak of any behavior of the vessel which would suggest jamming and it is to be observed that the allegation that the vessel sheered from side to side on this occasion is entirely devoid of foundation. An allegation that the wheel jammed, an event which so far from making the vessel swing from side to side would keep her head swinging one way.

On the other hand we have the evidence from the officers on board the Empress and of her pilot, all of whom affirmed that the steering gear was in perfect order and worked well.

### COURT COLLECTS \$445 FROM THREE OPIUM FUGITIVES

There were stiff fines handed out by Magistrate Maasie this morning to three subjects who are among the fugitives from the case of opium. During the last five weeks there have been no less than 17 opium fugitives found and pronounced by the magistrate department of the police force, and in each case these are destroyed by having their usefulness as evidence at an end.

In Jim Yen, a big body Chinaman who has been in the city and sentenced to three months' imprisonment this morning, the police believe they found out the whereabouts of opium in the drug in this city for it is known that Jim Yen continually made trips to Vancouver and Montreal for the purpose of the drug. He was arrested in a Nanaimo avenue pool hall and had in his possession some 100 lbs. of the drug for which he paid \$150 in Vancouver and which he would sell for about \$400 in this city. Among his friends in the city, he had a number of the drug for which he paid \$150 in Vancouver and which he would sell for about \$400 in this city. In default of payment, he will however spend three months at hard labor. Walker Prince, another opium fiend caught with the goods, was fined \$100 and costs or three months' imprisonment, and Patrick McEwen, another opium fiend caught with the goods, was fined \$25 and costs for the same offence. The case against Freda Prince on a like charge was dismissed. Stan Hamilton for being in a pool joint was fined for having 120 and costs.

### COLLISION ON THE ATHABASCA RIVER: DAMAGES CLAIMED

An interesting action has just been settled out of court in connection with a collision occurred on the Athabasca river at Athabasca Landing. The accident took place on June 29th when the Northern Navigation company's boat, the Northland 28th, collided, in approaching the wharf, with the small motor launch, "Iris," owned by Glen Purvis.

Mr. Purvis claimed damages. There is no admiralty court in Alberta and the action was settled privately. M. E. Charleson acting for Mr. Purvis. The only serious action in place as a result of an accident in 1899, but justice Scott, before whom the matter came, decided that he had jurisdiction, not being a judge of the admiralty division.

**Many Cases Handled**  
During the last week there has been no less than \$2,724 paid into the police court as fines on cases arising out of various violations of the liquor department. These cases include opium, flour and gambling cases, street walkers and disorderly houses. Other sundry cases have yielded in the neighborhood of \$450 during the same period of time.

There have been 225 cases before the court through the morality department alone, and some 419 other sundry cases, including many minor offences, as well as some of a more serious nature.

**George Nicholson Remanded**  
George Nicholson, who was remanded by the police last night appeared in police court this morning charged with contributing to the delinquency of a young girl named Hilda Holt. The case was remanded till the 16th.

**The Weather**  
The weather through the prairie provinces has been warm. Showers have occurred principally in eastern and southern Saskatchewan.

**Forecast:** Manitoba and Saskatchewan—Warm and partly fair with occasional showers today and Sunday. Alberta—Mostly fine and warm today and Sunday.

### The Big Sale's Over—But Not the Extraordinary Value-Giving

HAD we NOT stated definitely that July 11th would be the sale limit we might have continued it for a few days longer in order to make a final clearance of odds and ends that have popped up during the past few days. However, these together with what's sure to be discovered as we proceed with stocktaking, will be cleared from day to day. It will pay you to keep a watchful eye on these columns during the next ten days, as this period will be marked with extraordinary value-giving as odds and ends are encountered.

### All Lines of Women's and Misses' Summer Dresses Under Move- Out Orders at Reduced Prices

"S TILL too many Summer Dresses on the racks—all lines must be reduced within the next few days."

Another expression of opinion from the management—hence a general cutting of prices on all lines, offering women the prettiest summer dresses imaginable at good substantial savings.

### Dainty New Crepes Voiles and Ratines at 35c to \$1.00 Yd.

A DELAYED express shipment of the very latest productions in these cool summer fabrics has just arrived.

They are slightly behind time, so we've marked accordingly. The crepes and voiles are in dainty floral designs while the ratines are in white or colors. 20 to 42 inches wide. Crepes and voiles at 35c yd. Ratines at 50c, 75c and 1.00 per yard.

### Our Entire Remaining Stock of Men's \$5.00, \$5.50 and \$6.00 OXFORDS Must Now Go at \$2.50

"MEN'S Summer Oxfords must not appear on the inventory sheets." This is the emphatic order from the management. So out goes the entire remaining stock at the ridiculously low price of \$2.50 for \$5.00, \$5.50 and \$6.00 values!

High grade Oxfords at that! "Hart," "Bell" and "English" makes in the season's smartest styles in button or lace in patent leather, gummatel and dogskin in black, brown or tan with single or split Goodyear welt soles. Sizes 4 to 12. Regularly \$5.00, \$5.50 and \$6.00. Clearing at ..... **2.50**

### A Monday Special in Bath Towels for Campers

BUT, of course, while this appeal is being made specially to those planning to go to the beaches, there's nothing to prevent every household sharing the saving, for they are just as suitable for bath room use as on the beach.

They are of good thick quality absorbent terry cloth in plain white, grey and white and blue and white, and natural and red stripes in good large sizes, with fringe or hemmed ends. 50c Special Monday, per pair .....

### Smart New Models in Nemo and La Camille (Lace Front) Corsets at Popular Prices

THERE WAS A TIME when for the sake of a fashionable figure a woman had to endure all sorts of discomfort. Not so today! The makers of the two popular high grade corsets have so mastered the "art" of corset construction that style and comfort are combined and there's a model too that gives graceful carriage and comfort to every figure.

### New "Nemo" Models for Slender, Medium and Full Figures at \$4.00 to \$6.00

They are of best quality white batiste or coutil in the new Kop service and reducing models, fitted with Lasitkops webbing inserts at sides and back, also at bust line; have long skirts with very low and medium busts. Suitable for slender, medium and full figures. Sizes 19 to 36. Priced from ..... **\$4.00 to \$6.00**

### La Camille Lace Front Models at \$3.00 to \$4.50

Comfort, convenience and style are combined in these new camille models. They are of white broadcloth coutil, batiste or coutil featuring the new "Ventils" back and front protector.
